

ELITE PROGRAM

MELBOURNE

START

April 2026

LED BY

Siddhartha Lahiri — Head of Int'l Player Development

PROGRAM VISION

The **Rajasthan Royals Elite Program** is a comprehensive, 12-week high-performance environment designed to discover, nurture, and elevate cricketing talent across Melbourne.

Guided by our global philosophy, the **Royals Way**, we aim to bridge the gap between emerging potential and professional execution. This document outlines the fundamental structure of the program, setting the absolute standard for our coaching staff.

As a coach within this program, you will be instrumental in executing a scientifically periodised curriculum. Our focus is holistic: integrating technical mastery with tactical intelligence, physical conditioning, and mental resilience.

This resource acts as your foundational guide. It details the training rhythm, phase effectiveness goals, and the core pillars that ensure every player leaves the Elite Program better equipped to execute a T20 skillset regardless of where they are on their cricketing pathway.

PROGRAM AT A GLANCE

12 Weeks

Comprehensive holistic development program designed for measurable growth.

2 Sessions Per Week

1 Weekday Evening + 1 Weekend Session

Each player is allocated one 2-hour weekday session and one 2-hour weekend session per week.

WEEKDAY SESSION

Tuesday & Thursday

5:00 – 7:00pm

7:00 – 9:00pm

Allocated one slot

WEEKEND SESSION

Saturday & Sunday

8:00 – 10:00am

2:00 – 4:00pm

4:00 – 6:00pm

Allocated one slot

KEY DATES

WEEK ZERO (ORIENTATION)

Monday, 13th April

PROGRAM START (WEEK 1)

Monday, 20th April

48 HOURS OF COACHING ACROSS 12 WEEKS

THE ROYALS WAY

The philosophy that governs how we coach, develop and deliver our program.

OUR BELIEF

Cricket is a vehicle to shape confident, curious, resilient people.

The Royals Way is a living philosophy that guides how we scout, coach, play, learn, and lead — **from backyard to stadium.**

THE 7 PILLARS

1. Talent First

Discover · Back · Elevate

Identify potential before it's obvious and invest early.
Selection skews toward growth, not pedigree.

2. Play the Future

Lead with Innovation

Technology/data inform decisions, not replace judgment. Experimentation expected.

3. Learn by Doing

Skills forged in context — match simulations, scenarios. "Mistake → Lesson → Adjustment".

4. Play Bold

Courage is trainable. We reward intent and risk.
"Positive" = options created, not just outcomes.

5. Joy & Curiosity

Keep the game fun and the mind open — curiosity accelerates mastery. Coaches are students first.

6. Holistic Development

Performance = Skills × Fitness × Mindset × Recovery.
We coach the person.

7. Respect & Inclusion

Every learner gets dignity of attention. No shortcuts.
Diverse backgrounds make us better.

OUR PROMISE

We will discover potential early, develop it holistically, and elevate it with opportunity. We will keep cricket fun and futures open. **That is the Royals Way.**

PHASE EFFECTIVENESS

The 12-week program is scientifically periodised into three distinct phases to ensure skills are not just learned, but weaponised for competition.

01

WEEKS 1-4

STARTS MON 20TH APRIL

Explore

Establishing technical baselines. Intense focus on repetitive skill execution under low-to-medium pressure to embed muscle memory and correct biomechanical inefficiencies.

02

WEEKS 5-8

STARTS MON 18TH MAY

Challenge

Elevating the environment. Introduction of constrained match scenarios and higher-velocity challenges to stress-test skills and measure decision-making under genuine pressure.

03

WEEKS 9-12

STARTS MON 15TH JUNE

Execute

Full contextual immersion. High-intensity match simulations. Players are tested on their ability to read the game, execute the Royals Way, and influence outcomes.

WHAT'S INCLUDED OVERVIEW

48 hours of coaching contact time across 12 weeks — plus additional development beyond the training sessions.

CRICKET COACHING & MENTORING

2 on 1

Players will receive 2 on 1 coaching during particular training sessions to provide for both expert coaching and peer to peer learning, critical for the development of talented players.

Squad Training

Each player will be allocated to a squad that is at a similar age and similar ability based on the assessment of the Academy selection team.

Specialist (Masterclass)

Coaches and mentors with elite level skills will conduct masterclass sessions. The coaching team will monitor the skill set of the group and determine the appropriate masterclass.

Performance Analysis

Primarily the Rajasthan Royals Academy Management System and Full Track, as well as other tech programs, will form the basis of our monitoring tools.

Video Analysis

Video analysis is a cornerstone of the Elite Program, providing you with instant feedback on your development as a player.

MATCH PLAY / SIMULATION

Matches and Match Simulation

Players from the Elite Program may be invited to outdoor internal matches and match simulations, staged from time to time through the 2nd half of 2026.

Scenario Simulation

Indoor scenario sessions will be held at Cutting Edge Cricket Centre to provide for assisting players in recognising and navigating their way through specific match situations.

Power Hitting Sessions

The ability to switch into a power hitting mode is a huge part of the modern game and our expert coaches have built a program heavy on building this vital skillset.

ADDITIONAL SERVICES

Individual Development Plans (IDP)

Each player receives a personalised development plan that addresses the whole person: skills, fitness, mindset, recovery, and life.

Career Mentorship

Critical to your development, our expert team will work with you on mapping out cricket career and development opportunities based on your skills and performance.

360 Player Development

Sessions in nutrition, sports & performance psychology, strength & conditioning development and body management.

Daily Player Essentials

Building routine and professional behaviours through discipline and repetition. We respect that the smaller things and the one percenters matter most.

APPAREL

Playing Apparel

Players will receive an apparel pack, consisting of a hat, a training shirt and training shorts.

Additional Apparel

Additional apparel items can be purchased by Academy players, including jacket and training pants. Only those competing in matches are permitted to purchase playing apparel.

ADDITIONAL VALUE BEYOND INDOOR COACHING HOURS

- Priority access to masterclasses with Rajasthan Royals Academy guests
- Guest online sessions with Rajasthan Royals Academy coaches
- Online mental skill development sessions
- Skill-specific fitness & conditioning
- Outdoor fielding programs
- Priority access to further Academy programs
- Priority access to Academy tours

PLAYER DNA PROFILE

The Player DNA Profile is your roadmap to elite performance — a comprehensive, evidence-based assessment tool used to benchmark your current capabilities across the critical dimensions of cricket.

Throughout the 12 weeks, we track your progression across these 8 core pillars to build a professional-grade blueprint of your T20 skillset.

01

Technical Mastery

Biomechanical efficiency and repeatable core skills.

02

Tactical Execution

Game awareness, field placement manipulation, and scenario planning.

03

Physical Conditioning

Cricket-specific endurance, strength, and explosive power.

04

Mental Resilience

Pressure management, routine building, and emotional control.

05

Athletic Fielding

Ground coverage, throwing speed and accuracy, and catching reliability.

06

Match Impact

Ability to influence the outcome of the game under pressure.

07

Power Hitting

Range hitting, boundary maximization, and scoring intent.

08

Self-Awareness

Understanding personal strengths, weaknesses, and learning styles.

SPECIALIST COACHING

Beyond core skills, the Elite Program provides access to highly specialised disciplines necessary for dominating the modern game.

Spin Mastery & Variation

Effective spin is about control, deception, and taking the game away from a batter at the right moment. Stock ball accuracy, flight and loop, wrong'uns, arm balls — and the tactical intelligence to know when each variation is the right weapon.

Wicketkeeping Craft

Modern keeping demands explosive athleticism, technical precision, and match intelligence. Stance and footwork, standing-up skills, glove work in high-pressure moments, and reading bowlers and batters.

Game-Changing Fielding

Elite fielders don't just save runs — they change the momentum of matches. Ground coverage, long-barrier and sliding technique, direct-hit accuracy, and high-pressure catching that turns half-chances into wickets.

Strength & Conditioning

Cricket-specific athleticism built for elite performance: explosive power for hitting, bowling endurance, speed and agility in the field, and recovery management across a full 12 weeks.

Mental Performance & Mindset

Elite cricketers make better decisions faster, manage risk more accurately, and execute under pressure more consistently. Pre-performance routines, pressure management, and self-awareness to back your game when it matters most.

Bowl to Control the Game

Bowling with intent is about more than taking wickets — it's about controlling pressure, manipulating scoring zones, and executing plans that suffocate the opposition. Accuracy under pressure, variation sequencing, and the ability to bowl to fields.

Power and 360 Hitting

Modern T20 cricket demands batters who can score all around the ground, switch between gears, and accelerate at will. Range hitting, ramp shots, reverse sweeps, and the ability to manufacture boundaries under pressure from any position on the crease.

INDIVIDUAL DEVELOPMENT PLAN (IDP)

The Blueprint

Your IDP is not a generic template. It is a strictly personalized roadmap built from your initial assessments, designed to target your specific growth areas and amplify your unique strengths.

Collaborative Goal Setting

We sit down with you to establish clear, measurable, and achievable goals for the 12-week block. You own the journey; we provide the expert navigation.

Continuous Feedback Loop

Your IDP is a living document. Through our Academy Management System, performance analytics, and regular coach check-ins, your plan adapts as you evolve.

GLOBAL

BEYOND 12 WEEKS

Completing the 12-week program marks the beginning of your connection to the Rajasthan Royals ecosystem and Global Academy network — a connection that can grow with you.

Priority Access

As an Academy alumni, you receive priority access and "first dibs" on all future high-performance masterclasses, specialist clinics, and sessions hosted by Rajasthan Royals Academy Melbourne.

Global Tours

Inclusion in the selection pool for future academy tours. This includes potential visits to the Rajasthan Royals High Performance Centre in Nagpur, India, and other franchise locations.

Match & Simulation

Elite Program alumni will form the basis of teams and squads invited to take part in simulation and practice matches from time to time.
