

RAJASTHAN ROYALS ACADEMY MELBOURNE

Elite Program | Why This Is Different

\$3,990 FOR 12 WEEKS — HERE'S WHAT'S INCLUDED	
Coaching Hours	48 hours across 24 sessions (2 hrs, twice per week)
Coaching Ratio	2 coaches per squad every session — Squad Coach + Development Coach
Specialist Coaching	Rolling roster of mentors: power hitting, death bowling, spin, wicketkeeping, sports psych
Private Sessions	2-to-1 coaching built into every session, targeting each player's IDP priorities
Peer Coaching	Structured peer-to-peer coaching embedded in the program
Player DNA Card	Proprietary profiling system — archetypes, phase effectiveness, domain scores. RRA exclusive
Development Plan	Personalised 12-week IDP mapped directly from DNA Card findings
Coach Accreditation	Every coach Rajasthan Royals accredited via the official Royals Coaching Hub
Franchise Oversight	Performance data reviewed by Royals Group coaches who develop IPL, SA20 & CPL players
Sid Lahiri Visits	2 in-person visits per year from the Royals Group Head of International Player Development
Franchise Masterclasses	In-person masterclasses with Royals franchise coaches visiting Melbourne
Royals Player Session	Live session with a current Rajasthan Royals player during IPL, SA20 or CPL season
Franchise DOC Session	Session with the Paarl Royals & Barbados Royals Director of Cricket / Head Coach
Scout Exposure	Visits from Royals coaches, scouts and franchise players throughout the program
Inter-Academy	Potential inclusion in the 2026–27 Royals global inter-academy tournament
Royals Apparel	Official Rajasthan Royals Academy hat, training shirt and shorts included
Integrated Program	Video analysis, biomechanics, nutrition, S&C guidance — all included
Methodology	Explore → Challenge → Execute: learn the full range, sharpen decisions, perform under pressure
IPL Pathway	Potential pathway to Royals HPC Jaipur + trial opportunities across Royals franchise system

THE ROYALS WAY — A COACHING PHILOSOPHY, NOT JUST A LOGO

We don't wait for the finished product — we help build it. The Royals Way is the development philosophy used across the entire Rajasthan Royals franchise system — from the IPL to the SA20 to the CPL. It shapes how we scout, how we coach, and how we develop people. We value courage over comfort, curiosity over ego, and joy over jargon.

Every coach in this program is Rajasthan Royals accredited — trained and certified through the official Royals Coaching Hub, aligned to the franchise's seven development pillars. Your child isn't being coached by someone who watched an IPL game. They're being coached by people credentialed by the franchise itself, delivering the same methodology that develops professional players.

YOUR COACHING TEAM — QUALITY FIRST

Every coach has been hand-selected for their track record of developing players, not just their playing credentials.	
Siddhartha Lahiri	Royals Group Head of International Player Development. Performance Coach at Rajasthan Royals (IPL), Assistant Coach at Paarl Royals (SA20) & Barbados Royals (CPL).
Andy Crook	Managing Director, RR Academy Melbourne. Architect of the program's commercial and strategic vision.
Steven Crook	Director of Talent. 330+ professional matches, 2x T20 Blast champion. County cricket's original power-hitting all-rounder turned elite talent identifier.
Alex Lewis	Head Coach. 20+ years developing players into Premier Cricket & state pathways. Built academy programs from 15 to 100+ players. Cricket Victoria Coach Educator.

HOW YOUR CHILD IS COACHED — NOT JUST WHO

Every squad has two dedicated coaches for every session — an experienced Squad Coach leading the session plan, paired with a Development Coach who provides individual attention, live feedback and small-group instruction.

Squad Coaches	Current Premier Cricket players who are living the pathway right now. They've been through representative programs, state trials and high-performance environments — and bring that knowledge and credibility directly onto the session floor.
Development Coaches	Emerging coaches building their craft through the Royals coaching development pathway. They work closely with players on drill execution, movement patterns and individual repetition quality.
Specialist Coaches	A rolling roster of mentors and sessional specialists rotate through the program for targeted work — power hitting, death bowling, spin mastery, wicketkeeping craft, sports psychology and more.
Elite Habits	Led by Director of Talent Steven Crook, the program instils First Class-level professional habits — preparation routines, warm-up standards, session intensity, communication, and the daily disciplines that separate club cricketers from professional athletes.
Peer-to-Peer Coaching	Players learn to coach each other. Observing, cueing and giving feedback to a teammate is one of the fastest ways to deepen understanding of your own game — and it's built into the program structure.
2-to-1 Private Sessions	Every player receives dedicated small-group coaching within the session — two players with one coach, working on their specific IDP priorities. Not an optional extra. Built in.

EXPLORE • CHALLENGE • EXECUTE

We believe that when you want to learn a skill, you first learn the full range of everything you're capable of. Then you learn how to use decision-making and match awareness to apply those skills. Then you perform under pressure.

Cricket provides the perfect environment for this. Our Explore → Challenge → Execute framework gives young players the space to discover what they can do, the structure to sharpen when and why, and the competitive pressure to prove they can deliver.

EXPLORE Weeks 1–4	CHALLENGE Weeks 5–8	EXECUTE Weeks 9–12
Learn your full range. New shots, new deliveries, creative freedom. Build the complete toolkit without fear of failure.	Sharpen your decisions. Tactical constraints, match awareness, game plans. Learn when and why to use each skill.	Prove it under pressure. Match scenarios, live bowling, scoreboard pressure. Perform when it matters.

YOUR WEEKLY STRUCTURE

Each player trains for two hours, twice per week — one weekday session and one weekend session. Squads are allocated to a consistent block across the 12 weeks.

	Block A	Block B	Per Player
Tuesday & Thursday (Weekday)	5:30 – 7:30pm	7:30 – 9:30pm	1 weekday + 1 weekend = 4 hours per week
Saturday & Sunday (Weekend)	2:00 – 4:00pm	4:00 – 6:00pm	48 hours across 12 weeks

DIRECT ACCESS TO THE RAJASTHAN ROYALS

This isn't a franchise that licensed its name and walked away. The Rajasthan Royals are actively embedded in this program — reviewing players, visiting Melbourne, and providing access that doesn't exist through any other pathway in Australia.

Siddhartha Lahiri	The Royals Group Head of International Player Development visits Melbourne twice per year to assess players, review coaching quality and oversee the program first-hand. His first visit is March 2026 for the program's inaugural player assessment.
In-Person Masterclasses	Rajasthan Royals franchise coaches travel to Melbourne to deliver masterclass sessions directly to our players. These are not online webinars — they are hands-on, in-person sessions with coaches from the IPL ecosystem.
Current Royals Player	A live session with a current Rajasthan Royals contracted player during the IPL, SA20 or CPL season — connecting your child directly to someone playing at the highest level of T20 cricket in the world.
Paarl & Barbados DOC	A session with the Director of Cricket or Head Coach from Paarl Royals (SA20) and Barbados Royals (CPL) — providing exposure to the wider Royals Group network beyond the IPL.
Scouts & Franchise Visits	Royals coaches, scouts and franchise players visit the program throughout the year. During these visits, players who are showing exceptional development get the opportunity to showcase their skills directly.
Inter-Academy Tournament	From 2026–27, potential participation in a global Royals inter-academy tournament — competing against Royals Academy players from India, England, the USA and beyond.
Official Royals Apparel	Every player receives an official Rajasthan Royals Academy apparel pack — hat, training shirt and shorts. Additional items available for purchase.

THE PLAYER DNA CARD — WHO IS YOUR CHILD AS A CRICKETER?

Most academies tell you your child is “going well” or “needs to work on their batting.” That’s not a development plan. That’s a guess. Within the first two weeks of the program, every player receives a **Player DNA Card** — a proprietary assessment system exclusive to the Rajasthan Royals Academy Melbourne. Built by our coaching team, it paints a complete picture of who your child is as a cricketer right now, and where they’re heading. No other academy in Australia offers this.

What the DNA Card captures:

- A batting archetype — is your child a Firestarter who dominates the Powerplay? An Accumulator who builds innings? An Enforcer? A Game Manager? A Dual Threat?
- A bowling archetype — Wicket Hunter, Weapon, Squeeze, or Developer. Not just “medium-pacer” — a defined role with purpose.
- T20 phase effectiveness — how they perform specifically in the Powerplay, Middle Overs and Death Overs, with both bat and ball. This is where modern cricket is won and lost.
- Skill domain scores across Technical, Game IQ, Mental Performance and Physical Attributes — not a single overall grade, but a multi-dimensional view.
- Top 3 strengths and top 3 development priorities — specific, actionable, and honest.
- A written DNA Summary — a 3–5 sentence narrative from the coaching team describing exactly who this player is and what makes them unique.

Why does this matter?

Because modern cricket is format-specific. A player who averages 30 in club cricket tells you almost nothing. A player whose DNA Card says “Firestarter — dominates the Powerplay, strike rate drops significantly in the Death, front-foot bias limits scoring against short-pitched pace” tells a club, a coach or a selectors’ panel *exactly* how to use that player and what to develop next.

This is how IPL franchises evaluate talent. The Player DNA Card brings that same framework to your child — and it’s only available through the Rajasthan Royals Academy Melbourne.

INDIVIDUAL DEVELOPMENT PLANS — YOUR CHILD’S ROADMAP

The DNA Card isn't a report card that goes on the fridge. It's the starting point for a personalised **Individual Development Plan (IDP)** — a written, measurable, week-by-week plan that tells your child exactly what they're working on, why it matters, and how they'll know when they've improved.

No other cricket program in Australia provides this.

How the IDP works:

- The DNA Card reveals where the gaps are. If a player’s technical skills are strong but their T20 game intelligence is low, the IDP doesn't say “improve batting.” It says “technical foundation is solid — the priority is learning when and where to use those skills under match pressure.”
- Archetype profiling sets the direction. A player's current archetype (e.g. Accumulator) and their target archetype (e.g. Enforcer) create a trajectory. The IDP maps exactly what needs to change — technically, tactically and mentally — to get there.
- Phase effectiveness pinpoints the specifics. A player might be strong overall but weak in Death overs batting. The IDP creates phase-specific goals — not generic ones.
- Every goal maps directly to the Explore → Challenge → Execute framework. Month 1 builds the range. Month 2 sharpens the decisions. Month 3 tests it all under competitive pressure. The IDP tells each player what they're working on in each phase and why.
- Players are encouraged to journal throughout the program — reflecting on sessions, tracking their own progress, and building the self-awareness that separates good cricketers from elite ones. The journal becomes part of the development conversation between player and coach.
- Progress is measured, not assumed. The system produces scores at intake and again at Week 12. Coaches show concrete, numerical development — not just “improved” but exactly how much and in which areas.

What does this mean for your child?

They walk into their next club season, representative trial or school program with a professional-grade development profile, a defined cricketing identity, and evidence of exactly where they've grown. Coaches, selectors and clubs don't have to guess. The DNA Card and IDP tell the story for them.

48 hours of coaching. DNA profiling. Individual development plans. Private sessions. Specialist coaching. Franchise-accredited coaches. In-person masterclasses with Royals franchise coaches. Sessions with current IPL players. Royals apparel. An IPL pathway. All included. Nothing extra. \$3,990.

Discover. Develop. Elevate.
